

# When the solar company comes knocking at your door:

1

You **DO NOT HAVE TO TALK TO THEM**. Talk to them only if you are comfortable doing so.

2

You can ask them to get off of your property. They are **trespassing** if you ask them to leave and they don't.

3

If you feel **threatened or harassed** from repeated contact by the solar company, you have the right to call the local police.

4

You can **record all conversations** and interactions with them.

5

They can NOT take your property by **eminent domain** if you **don't sign a contract** with them!

6

You're entitled to the **fair market value** for your property, even if their project harms your property value. A pre-solar-installation **appraisal** can be used for any claim you make in court.
